But which Ravana in his arrogant haste, accidentally dropped and it fell to earth at Koteswar. To punish Ravana for his carelessness, the linga turned into a thousand identical ones, some versions of the story say ten thousand, some a million. The **arts and crafts of the village** is the reason to visit the village that thrives with local arts and crafts. While the women work magic with their hands in embroidery, the men in the village craft beautiful articles from wood. Beautiful designs of the legs of cots, tables, and other furniture, and ornate doors, can be seen in the village.

## ❖ White Rann of Kutch

The Rann was a once a shallow part of the Arabian Sea, until a geological shift closed off the connection with the sea. The region became a seasonal marshy salt desert over the years. During monsoons the region fills up with water and forms a wetland. In the summer the water dries to create a bed of white salty land. The **sunset** at the White Rann of Kutch is mesmerizing beyond words. One can see the transformation of the sun which shines bright and high during the daytime, slowly starts to mellow down and descend at the onset of the evening.

## ❖ Dholavira

India's most recent **UNESCO World Heritage site**, Dholavira a Harappan city, is one of the very few well preserved urban settlements in South Asia dating from the 3rd to mid-2nd millennium BCE. Being the 6th largest of more than 1,000 Harappan sites discovered so far, and occupied for over 1,500 years, Dholavira not only witnesses the entire trajectory of the rise and fall of this early civilization of humankind, but also demonstrates its multifaceted achievements in terms of urban planning, construction techniques, water management, social governance and development, art, manufacturing, trading, and belief system.

## ❖ Indus-Valley excavated site Museum

Dholavira is older than the Egyptian pyramids and displays remnants of a highly sophisticated urban culture that was way ahead of its time. The Dholavira museum exhibits information and artifacts related to the Dholavira archaeological site. Some of the significant objects unearthed during excavation from the site are a number of seals and sealing, graduated scale made on a charred rib bone of an animal, beads of semi-precious stones, copper, gold, shell, and terracotta. The unicorn animal figure is a prime discovery of its kind among the terracotta figurines. The museum also has some antiquities indicating its link with Mesopotamia. Every year, scholars, tourists, researchers and students visit this museum situated at the entrance of the site.

## ❖ Fossil Park

It is also called the Dinosaur Fossil Park. The boulders here have weird shapes, with constant exposure to salt laden moist winds they have eroded in the strangest manner possible. The deep holes on the surface seemed like some empty eye sockets to me. Nearby in a barricaded area there is an impressive display of fossilized wood belonging to Jurassic era.
